PROFESSIONAL PROFILE

UI/UX Designer with a hands-on, Figma-driven design process spanning wireframes, prototypes, and scalable design systems for web and mobile products. Comfortable owning the full design lifecycle — user research, usability testing, and iterative refinement based on feedback and data — while working closely with founders, engineers, and product teams. Drawn to fast-moving startup environments where design decisions ship quickly and directly shape the product.

CORE QUALIFICATIONS AND SKILLS

User-Centered Design & Human-Centered Design Thinking

- Wireframes, Prototypes & Design Systems — Figma, Adobe XD, Miro
- Usability Testing & User Research (Interviews, Surveys, A/B Testing)
- Accessibility Standards (WCAG) & Information Architecture
- Responsive, Interactive UI Design for Web & Mobile
- Cross-Functional Collaboration with Engineers & Product Teams (Agile/Scrum)
- User Flows, Journey Mapping & Content Strategy
- Presenting & Explaining Design Rationale to Non-Designers

WORK EXPERIENCE

Sales Associate

The Shoe Company

Belleville, ON

October 2023 – March 2024

- Delivered outstanding customer service through direct sales, product education, and personalized recommendations.
- Processed transactions with attention to detail and assisted with inventory and merchandising.
- Developed customer rapport and contributed to sales growth and team performance.
- Promoted product offerings while identifying customer needs and providing tailored solutions.

Customer Service Representative.

Concentrix

Belleville, ON

March 2022– September 2023

- Handled high-volume inbound calls while maintaining low hold times and meeting call center performance metrics.
- Supported customer inquiries, complaints, appointment scheduling, and service coordination.
- Captured detailed customer situations with precision and communicated policy guidelines effectively.
- Demonstrated problem-solving and empathy in resolving complex customer concerns.
- Maintained accurate documentation and followed escalation protocols for high-priority issues.
- Collaborated cross-functionally to ensure a seamless customer experience.

Product Designer

Routez – Local Bus Transit Mobile Application

Belleville, ON

Sep 2023 – Till Date

- Designed user journeys, wireframes, and production-ready, high-fidelity mockups for a city-wide transit app used by everyday commuters.
- Partnered directly with city officials, engineers, and QA to translate commuter needs into shipped product features.
- Ran usability testing to validate design assumptions and iterated on interactions based on findings.
- Produced UX documentation — navigation flows, personas, UI specs — to keep design and engineering aligned.
- Built a metrics dashboard to track engagement and guide ongoing design iteration.

LAGOS WASTE MANAGEMENT AUTHORITY

Web/Mobile App Designer

Lagos, NG

May 2021 – June 2023

- Redesigned and prototyped the Lagos Waste Management Authority App
- Redesigned the Lagos Waste Management Authority website
- Created wireframes of the Lawma App and website

UI/UX Designer

XRUBICON SOLUTIONS (PAKAM)

Lagos, NG

April 2021 – February 2022

- Design and prototype the Pakam admin dashboard, Pakam company dashboard, Pakam household app, Pakam recycler app, Pakam recycler app and Pakam website
- Collaborated with Frontend and backend team to successfully carryout the development of the pakam admin dashboard and company dashboard
- Collaborated with the mobile app team to successfully carryout the development of the pakam household app revamp and pakam recyclers app revamp

Product Designer

OFFICE OF SUSTAINABLE DEVELOPMENT GOALS AND INVESTMENT

Lagos, NG

March 2020 – April 2021

- Led the design team in designing and prototyping the Lagos State Volunteer Corps (LSVC) mobile app as well as the Website and dashboard.
- Mobilizing volunteers in the Lagos State Volunteer Corps (LSVC) mobile apps
- Registration of volunteers to participate in LSVC
- Implementing the SDG goals by encouraging volunteers to participate
- Report compilation of LSVC events
